

# Charity Art Auction «Hands for Mom»

- During the 90 days of the brutal war, we received a severe "national traumatology": hundreds and thousands of injuries and violent atrocities against civilian civilians. Murders and injuries of children and mothers are beyond comprehension and perception. Today, in the deep rear in the Lviv region, the front of the "struggle for life" is bravely held by our doctors. They are visited daily by the seriously injured, but fortunately alive, defenders of our country affected by hot spots of Donetsk, Luhansk, Kherson, Kharkiv, Zaporozhye. Dozens of women with small children in their arms lost their arms during the bombing. Spiritual and physical rehabilitation of Ukrainian mothers is extremely important today. It is everyone's responsibility to earn and help! Ukrainian artists, having art as a weapon, are ready to donate their works to a noble cause. The idea of the auction is simple - to raise funds for prostheses for Ukrainian mothers who must continue to live and care for their young children!

- Auction curator Dr. Khrystyna Berehovska, Cultural Adviser to the Head of the Lviv Regional Military Administration.

- For more than two months, Ukrainians have been courageously defending our state: some are fighting hard on the line of fire, and some are defending their no less important front in the rear... The world of art and culture can never be apolitical, given that artists always appeal to their own experiences , impressions or fears, today, they unitedly defend their position and ideals on the artistic front of the country. United by a common mission, well-known Ukrainian artists took part in the Hands for Mom charity auction and donated their work to help Ukrainian mothers who have lost limbs as a result of the Russian occupiers' bombings, and with them the opportunity to care for their children. Every day more and more affected women come to Lviv region in need of mental and physical healing. Therefore, the main mission of the auction is to raise funds for prosthetics for mothers, which will not allow them to lose heart and inspire them to live a full life. The axiom: "happy mother is a happy child", in today's realities acquires a new interpretation: "happy mothers and children today - bright and cloudless Ukraine tomorrow"!
