Berlin4Ukraine: Meet & Learn A networking event for exile researchers

When: Thursday, 30 June 2022

Where: Berlin-Brandenburg Academy of Sciences and Humanities (BBAW)
Jägerstraße 22/23, 10117 Berlin

 Parts of the event will be streamed online

Why: PhD students and researchers from all disciplines that had to flee from war, violence and political persecution often see themselves confronted with similar problems: They want to continue their scientific work but often they are unfamiliar with the German science system and the local funding culture. Moreover, they have to rebuild their academic network, sometimes almost from scratch.

The Berlin4Ukraine-event aims to convey basic knowledge of the structures and key players of the German Science System, to explain the key support offers for refugee researchers and scholars at risk in particular, as well as the system of German science funding in general. Moreover, the event is intended to provide a networking opportunity for researchers from Ukraine and from Berlin.

Who: Academics, Ph.D. students, researchers, and science managers from Ukraine, but also researchers and professionals from research institutes in Berlin

Please register via the following link: <https://events.wzb.eu/ber4ukr/>

A childcare option will be provided.

Hygiene rules to contain the SARS-CoV-2 coronavirus will apply:

Please provide a negative COVID-19 test result at the entrance that is not older than 24 hours. Please wear a FFP2-mask while moving in the building.
